Students are strictly required to leave Japan after the completion of their intended study period at APU.

# Other Information:

## Driving:

Study abroad students are not allowed to drive motor vehicles including car and motorcycle during the program at APU.

## Employment:

Part-time jobs are sometimes available within the university and in the city. APU provides students with information on part-time jobs. However, competition is tough and Japanese proficiency is oftentimes required for students who wish to work off campus.

## Employment Regulations:

Students are required to file for a “Work Permit” to the Immigration Bureau before getting a job and participate in activities other than studying. This form is available at the Student Office (APU). Students can only apply for a Work Permit after receiving their Residence Card. It may take about two and a half months after arrival before students can actually start applying to jobs.
