INSTITUTIONAL INFORMATION

With tradition and history, the Ritsumeikan Trust opened APU in April 2000 as the first genuine international university in Japan.

The APU campus is a truly multicultural and multilingual environment with nearly half of the student population made up of international students from around the world and an equally diverse faculty.

Our campus is in Beppu City, which is located in the southern part of Japan and is one of the country's most famous hot spring resorts, attracting tourists from Japan and abroad.
