

About President University

Vision

"To be an eminent university that produces leaders with entrepreneurial spirit, multicultural and global mindset"

Mission

- To establish an education system with a high standard of excellence
- Strengthen and encourage self-development to become creative, innovative, inclusive and broad-minded leaders
- Conduct high quality, effective and sustainable research and community service
- Develop professional culture in managing the university resources
- Establish mutually beneficial cooperation with various national, regional and international/global institutions in implementing the Tridharma of Higher Education

President University is a 100% English-speaking higher education institution in Indonesia, which was established to become a research and development center in the region and to set a new benchmark in Indonesian higher education. Specifically, the university was formed to create an institution of learning, which would prepare the future leaders of industry and society by giving them the skills and experiences necessary to excel upon graduation.

According to one of the founders of President University and also the Chairman of Jababeka Group, Mr. Setyono Djuandi Darmono, President University was built for two reasons: to become a research and development center and to set a new benchmark in Indonesian higher education. The founders of President University laid down the foundation and groundwork to ensure that President University will develop into a great institution of learning where students from all parts of the world can acquire knowledge and develop into useful yet responsible citizens and future leaders.

President University is strategically located in Jababeka Education Park in Kota Jababeka, just 45-minute drive to the east of Jakarta, Indonesia. The Jababeka Industrial Estate is one of the largest and integrated industrial areas in South East Asia and a home of 1,700 multinational companies from 30 countries, i.e. USA, CANADA, Germany, France, UK, the Netherlands, China, Japan, Korea, Taiwan, Singapore, Malaysia, and Australia, surrounds it. The companies, amongst the others are L'Oreal, Unilever, Samsung, Mattel, ICI Paint, and Kraft, can be solutions for real-life companies, and also serve as a limitless pool of internship/on-the-job training opportunities for the students.

As a relatively young university with about 5,000 total students at the moment, not only are the classes conducted in English to instill global perspectives and improve competitiveness, but

President University is also equipped with an international-standard curriculum which was prepared and developed by world-class academics. This is in line with the university's vision to become a world-class university that produces leaders in their respective fields and communities. The History

The conceptual plan of President University was first formulated in September 1997 by S. D. Darmono, the Chairman of Jababeka Group and Prof. Donald W. Watts, who was the President of Bond University, Queensland and Vice Chancellor of Curtin University, Western Australia. The goal of their proposed University was to create an institution of learning which would prepare future leaders of industry and society by giving them the skills and experience necessary to excel upon graduation.

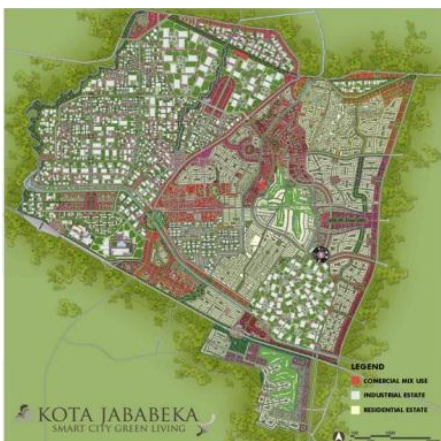

The institution was officially operated in 2001, offering a Bachelor of Engineering degree. At that time, the institution was called the Cikarang School of Engineering (Sekolah Tinggi Teknik Cikarang). On April 16, 2004, the Ministry of Education granted President University official status as a full-fledged university.

Although as a relatively young university, President University (PresUniv) is growing at a tremendous rate every year. There are now approximately 5,000 students attending President University from Indonesia as well as many other countries. President University has expanded its courses offerings and now offers 14 different majors in subjects ranging from Industrial Engineering to Public Relations.

President University is located in Jababeka Education Park in Kota Jababeka, surrounded by Jababeka Industrial Estate with more than 1,700 national as well as multinational companies such as Unilever, Mattel, Samsung, Mulia, ICI Paints, and others. Its location also allows students to make use of world-class facilities such as the Jababeka Golf & Country Club and the President Executive Club.

Kota Jababeka: Home of President University

Kota Jababeka lies 35 kilometer east of Jakarta's Central Business District and covers the Cikarang area, which is part of the Bekasi regency. The regency of Bekasi covers a total area of 150,000 hectares and shares borders with regency of Karawang in the east, Bogor in the south and Jakarta in the West. The Java Sea lies to the north of the Bekasi regency.

Kota Jababeka can be conveniently accessed from the Bekasi-Cikampek toll-road (highway) and is served by the Cikarang Barat & Lemahabang kilometer 31 toll gate (exit toll road at kilometer 28). Commuting time between Kota Jababeka and central Jakarta by car is approximately 1 – 1,5 hours.

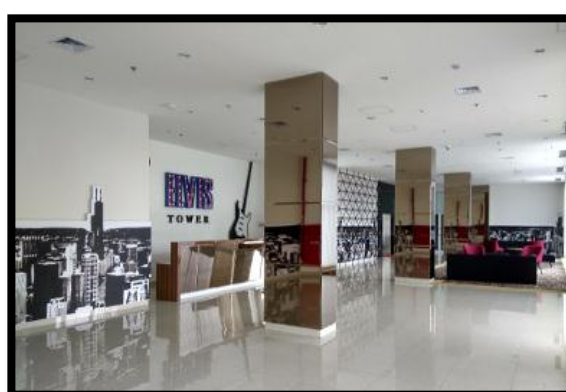

Kota Jababeka is a mature township development, of which approximately 60% has been developed out of a total of 5,600 hectares of land area. It is a self-contained industry-based township that is home to more than 1,700 local and multinational companies from over 30 countries, such as The United States,

Japan, France, The United Kingdom, The Netherlands, Australia, Korea, Singapore, Taiwan, Malaysia, and numerous others. Kota Jababeka has industrial, residential and commercial developments, a public transportation network, shopping, leisure and entertainment establishments, as well as a dry port, power plants, two water treatment plants, two waste water treatment plants and numerous other facilities.
