PRE-DEPARTURE

<p>Website for international students</p>	<p>This website with information on life in the Netherlands and practical matters such as Visa, Housing and Financial Matters will help students prepare their stay.</p>
<p>Housing</p>	<p>Like many universities in the Netherlands, Leiden University does not have a central campus or student dormitories. Instead, our faculties are spread throughout the cities of Leiden and The Hague and students live in accommodation rented via housing organisations and landlords. In general, students are expected to arrange their own housing. We advise prospective students to start to explore ways of finding accommodation well before arriving in the Netherlands to begin their studies.</p> <p>Each year, Leiden University reserves a limited number of rooms via housing agency DUWO for new international students, but due to high demand and limited availability, Leiden University cannot guarantee accommodation to all applicants.</p> <p>Prospective students are thus advised to apply for housing in a very early stage, and to pay the housing application fee (€285) as early as possible after application. An application for housing can be submitted via the application portal as soon as their application for admission has been submitted. There is no need to await a decision on</p>

	<p>their application for admission to Leiden University. Once a student has reserved an accommodation via University Housing, the housing agency DUWO further coordinates the process.</p> <p>Housing through Leiden University cannot be guaranteed, we insist that students also seek housing via other routes. If a student needs to find housing independently Leiden University can give advice and tips. Please be informed that private housing can be expensive and is scarce.</p>
Visa and residence permits	<p>Holders of EU/EEA passports do not require a residence permit to study at Leiden University. Students with a non-EU nationality must have a residence permit and in many cases an entry visa as well. Once a student has been admitted to Leiden University, the International Relations Office will work with the student to apply on their behalf. Students should note that there is a fee of €228 for visas/permits (this fee is subject to change annually) and strict deadlines for submission of documents. Please note: the amount of living fee a student has to prove is €1250 p/m (for one semester is this amount €6250).</p>
Insurance	<p>All students are obliged to have health insurance to cover any medical costs incurred during their stay. We strongly recommend that students ensure they have medical insurance before their arrival. Students are also highly recommended to take out liability insurance to cover any accidental damage caused to other persons or property.</p>
Estimated living expenses	<p>On average, students will need at least €968 – €1338 per month. Also see financial matters.</p> <p>Please note that public transport is not free for exchange students, but discount cards are available.</p>

They also function as a contact point, referring them to the appropriate Student Support Services, and as a liaison between DUWO, and the interests of the tenants.</p>

Course approval & registration

Course approval occurs at the time of application to the exchange program. This process reserves students a place in the approved courses at most programmes.* Registration for approved courses in our online registration system occurs prior to the start of the semester. This process differs per faculty; students will receive further instructions close to the start of the semester.

Questions regarding course registration after arrival should be directed to the [academic coordinator at the faculty](#) responsible for the course a student wishes to take.

***Please refer to our [website](#) for detailed information about course selection. About the course restrictions refer to the information under the header [Important faculty-specific considerations](#).**

Important notes:

- Leiden Law School only offers a maximum of 15 EC of courses to university wide students. It's not possible to take more credits at this faculty.
- The Biology programme does not offer undergraduate courses in English during spring semester.

Examinations

Many exams for courses that are available to international exchange students are held before the Christmas holidays so that students may return home by the end of December. There is, however, no guarantee that this will always be possible. Alternative arrangements for assessments may be possible, only at the discretion of the lecturer/department.

Important note: It is not possible to make alternative arrangements for Psychology exams. If students need to be back at their home university in early January, they cannot take psychology courses in period 2.

Transcript issuance

Students can download their digitally certified transcript from the uSis application portal up to 60 days after the end of their final semester at Leiden University. After this period, transcripts can be requested via email at exchange@sea.leidenuniv.nl
