Number of Credits Earned from Distance Learning Courses

Number of Credits from “Distance Learning Courses” Included in Credits Counted Toward Graduation

A maximum of 60 credits earned from Distance Learning Courses may be counted toward graduation.

Under the Standards for the Establishment of Universities and APU’s University Regulations, the maximum number of credits from Distance Learning Courses that can be counted towards graduation for undergraduate students is 60 credits. Please note that if a student earns more than 60 credits, the additional credits will not count toward the number of credits needed for graduation. In addition, please note that even if a student earns more than 60 credits for applicable courses, this will not be indicated under “Subjects Not Counted Towards Graduation” on the “Grade Report [Credit Completion]” page of CAMPUS WEB.

As such, students must check and manage the number of credits earned through Distance Learning courses themselves and make sure they do not exceed 60 credits.

Please check [this page](#) for the list of Distance Learning Courses and other information.

External Exams (Benchmark Test) included in the Grade Evaluation for Required English Courses

The results of external exams are included in the grade evaluation of some required English language courses. These external exams can be used as useful indicators for measuring the results of each student's English learning, and aid students in gaining comprehensive English skills that can be used in this era of globalization. Japanese-basis Standard Track students taking required English courses must take the Benchmark Test on campus on the designated exam dates.

What is the Benchmark Test?

The Benchmark Test is Pearson's computer-based test of English language proficiency that is designed to show learner progress in the language over a period of time. It is an integrated-skills test, including Reading, Writing, Speaking, Listening. As well as giving detailed feedback to students on all of these language skills, the Benchmark Test provides students with a Global Scale of English (GSE) score.

Language Study Outside the Classroom

To further improve your language skills, APU offers a wide range of short-term programs during summer and winter holidays, as well as six-month and one-year overseas language training and study abroad programs. Students are also strongly encouraged to take the TOEFL ITP®, TOEIC® Listening and Reading Test and IELTS, which are conducted on campus, as an opportunity to objectively assess their English language skills. We look forward to your active participation and taking these tests!

6-1. What are Common Liberal Arts Subjects?

6. Common Education Subjects (Common Liberal Arts Subjects)

The subjects available at APU are divided into Common Education Subjects and Major Education Subjects. Common Education Subjects include Language Education Subjects and Common Liberal Arts Subjects. Language Education Subjects are further subdivided into 5 areas: English Language Subjects, Japanese Language Subjects, AP Language Subjects, Special Lecture Subjects, and Common Subjects. Common Liberal Arts Subjects are further subdivided into 3 areas: APU Literacy Subjects, Introduction to Major Studies Subjects and Global Citizen Foundation Subjects.

6-1. What are Common Liberal Arts Subjects?

All Common Liberal Arts Subjects are sorted into three subject fields. Subjects that fall under Common Liberal Arts include ones that aim to cultivate cultured and knowledgeable students as well as foundation subjects that serve as an introduction to each college's major subjects.

Please refer to your college's curriculum outline to check which subjects belong to each subject field.

Common Liberal Arts Subjects

Field	Outline
APU Literacy	APU aims to be a global learning community where its diverse student body, composed of students with diverse cultural and social backgrounds from all over Japan and the world, can grow and develop while deepening their mutual understanding towards each other. By studying subjects in this field, students can acquire the methodologies needed to enrich their studies and make the most of APU's multicultural environment as they deepen their understanding of Japan and the Asia Pacific region, where the majority of students come from.
Introduction to Major Studies	The subjects in this field are foundation subjects that serve as an introduction to specialized study in each of the three colleges. Most of these subjects are required subjects for each college, and students should take them as early as possible to gain a foundation in their university studies.
Global Citizens Foundation	In order to become global changemakers, APU students must be knowledgeable and well-versed in the humanities, social sciences, and natural sciences. This field includes a variety of subjects that do not fall under the specialties of APU's three colleges. Furthermore, students also need to be able to logically formulate ideas based on data and communicate with the world using ICT. This subject field also includes subjects that serve as the foundation for acquiring these skills.

6-2. Student Success Workshop (SSW) • Multicultural Cooperative Workshop (MCW)

Student Success Workshop (SSW)

Aim

This course aims to equip first-year students with academic skills and the skills and mindsets to study independently, autonomously, and cooperatively to be successful in various academic and social experiences at university.

Class Method

In the first half of the semester, students learn about learning together with others and coordinating studying on their own through readings and discussions. In the second half of the semester, students learn in a practical way how to find academic resources, how to write academically, and the difference between plagiarism and citing. Lastly, students listen to the stories of senior students and graduates invited as guest speakers, and set goals to increase their motivation to study. This class makes extensive use of group learning by dividing students into small groups, with undergraduate Student Assistants(SAs) acting as facilitators.

Multicultural Cooperative Workshop (MCW)

Aim

Working cooperatively with people from different cultural backgrounds is everyday practice at APU and has become commonplace in today's globalized society. This course aims to equip first-year students with the basic skills and attitudes for intercultural communication and cooperative learning required in such settings.

Class Method

This class is based on a combination of lectures provided by faculty members and workshops facilitated by Student Assistants (SAs). In principle, the lectures will be held in large classrooms separated by Japanese and English language bases, and the workshops will be held in small classrooms mixing Japanese and English language bases. In these work shops, students will be further divided into small groups mixing Japanese and English language bases to focus on acquiring skills and attitudes related to intercultural learning and multicultural cooperation. In the second half of the course, students will work on a group project while applying such skills and attitudes, and present their group project during a final presentation event.

■ APS [Major Seminar]

Through small-group instruction, students deepen their specialized learning of concepts, theories, methodology, etc. for analysis and consideration related to their topics, as well as participate in discussions, give presentations, and write reports.

4th Year Seminars

This course aims to have students make the most of the knowledge and techniques they have gained up through their third year to write an graduation thesis as a culmination of their 4 years of study.

Students spend a year researching a topic they are interested in, and complete their theses in the second half of the year. In the first half of their 4th year, students take "Graduation Research I" (2 credits), and in the second half of the year they take "Graduation Research II" (2 credits) and "Graduation Thesis" (2 credits).

【Grade Evaluation】

Letter Grade (A+, A, B, C, F)

■ Graduation Research I

Graduation Research I is the course taken before students write their graduation thesis in Graduation Thesis II. As a culmination of their four years of study, students select their own research topic under the guidance of the course instructor and research specific matters, concepts, and theories in line with their topic to prepare for writing their graduation thesis.

Graduation Research II

In Graduation Thesis II, students summarize the research they carried out in Graduation Research I in a graduation thesis or report. By writing a graduation thesis or report, students can gain the ability to analyze and consider research topics in greater depth, as well as learn how to express themselves more appropriately in their thesis or report. In other words, as undergraduate students, they are expected to gain and improve their ability to select an appropriate issue to research (topic, research question, etc.), collect information, analyze and consider the issue, and express their research results appropriately. Students must earn credit for this course to graduate from the College of Asia Pacific Studies.
