

Faculty Information

CORTEZ, Michael Angelo A.

■ Specialization:

Accounting and Finance (AF)

■ Research Area:

Research methods (empirical research, case studies, mixed methods), financial analysis, industry analysis

■ Keywords:

Sustainability, environmental accounting, financial performance, capital structure.

■ Seminar Topic:

Management Accounting for Decision Making (using financial and non-financial information)

■ Seminar Teaching Method:

- Lecture on Philosophy of Research
- Computer laboratory exercises for data base access, data set generation, and statistical analysis using STATA

■ Possible Research Topics for Students:

- Environmental accounting and reporting
- Sustainability Reporting
- Environmental performance and financial performance
- Determinant of financial performance
- Industry analysis and capital structure analysis

■ Research Method:

Mixed methods, merging or archival databases, statistical analysis, qualitative analysis

■ Comments:

I prefer students who write thesis. If they write independent final report, it should be significant to their work.
